INDEX OF AUTHORS

AL-SALEH, A. A. 1
ANDREWS, P. 231

BELL, E. 105
BIRD, J. 27
BROWN, A. F. 213

CLEFFMANN, G. 121
CROSS, N. L. 13
CROSSLEY, R. 81

DICKINSON, H. G. 27
DOWNES, C. S. 145

EDEN, M. 105

FORRESTER, J. V. 213

HOLBERTON, D. V. 81

ISBERNER, P. 121
ITO, T. 133

JOHNSON, K. E. 43, 61
JOHNSON, R. T. 145
JUDD, W. J. 245

KOMNICK, H. 159
KUKULIES, J. 159

LACKIE, J. M. 213
LAROY, K. 203
LEVINSTONE, D. 105
LORD, P. G. 183
LOVETT, E. J. 245

MATSUI, H. 133
McCOY, J. P. 245
MILSOM, D. W. 231

NAGATINI, Y. 71
NAKATSUJI, N. 43, 61

OHNISHI, S.-I. 133

PORTER, E. K. 27

SCHRIER, D. 245
STODDART, R. W. 231

URABE, N. 71

VARANI, J. 245

WAGENAAR, E. B. 257
WEEKS, G. 203
WESTWOOD, J. T. 257
WHEALS, A. E. 183

YAMAMOTO, K. 71
YAMAOKA, I. 71
YEW, F. F. 145

INDEX OF SUBJECTS

ABO blood-typing sera
cytotoxic effects on murine tumour cells: McCOY, SCHRIER, LOVETT, JUDD & VARANI 245
Adhesion
of neutrophil leucocytes: FORRESTER, LACKIE & BROWN 213
Alpha-factor
cell cycle initiation in yeast: LORD & WHEALS 183
Alpha-2-macroglobulin
in neutrophils in the presence of protease inhibitors: FORRESTER, LACKIE & BROWN 213
Alternation of generations
in *Lilium*: BIRD, PORTER & DICKINSON 27
Amphibian gastrulae
comparison of ectodermal fibrils of five species: NAKATSUJI & JOHNSON 61
Antiproteases
effect on neutrophil behaviour: FORRESTER, LACKIE & BROWN 213

Cell cycle
initiation in yeast: LORD & WHEALS 183
Cell junctions
in rectal chloride epithelia of dragonfly: KUKULIES & KOMNICK 159
Cell motility
in fibroblast clones: LEVINSTONE, EDEN & BELL 105
Cell proliferation
effect of conditioned medium on: DOWNES, JOHNSON & YEW 145
Conditioned medium
effects on nucleoside uptake, cell cycle progression and DNA repair: DOWNES, JOHNSON & YEW 145
Cuticle
of rectal chloride epithelia of *Aeshna cyanea*: KUKULIES & KOMNICK 159
Cytoskeleton
of *Giardia*, charactization of proteins: CROSSLEY & HOLBERTON 81
Cytotoxicity
of human ABO blood-typing sera for murine tumour cells: McCOY, SCHRIER, LOVETT JUDD & VARANI 245

Dictyostelium discoideum
inhibition of differentiation by exogenous lectins: LAROY & WEEKS 203
Differentiation
in *D. discoideum*, inhibition by exogenous lectins: LAROY & WEEKS 203
DNA repair
effect of conditioned medium on: DOWNES, JOHNSON & YEW 145
DNA replication
in *Xenopus laevis*, effect of temperature: AL-SALEH 1

Ectodermal cells
comparison of fibrils in five amphibian species: NAKATSUJI & JOHNSON 61
Emetine
effect on protein synthesis in CHO cells: WESTWOOD & WAGENAAR 257
Epididymis
of mice, Golgi complex of epithelial cells: YAMAOKA, YAMAMOTO & NAGATANI 71

Fibrils
on ectodermal layer of five amphibian gastrulae: NAKATSUJI & JOHNSON 61

Gastrulation
in amphibia, oriented locomotion in: NAKATSUJI & JOHNSON 43
Giardia
cytoskeleton, characterization of proteins: CROSSLEY & HOLBERTON 81
Giardin
in cytoskeleton of *Giardia*: CROSSLEY & HOLBERTON 81
Golgi complex
in epididymal epithelial cells of castrated and testosterone-induced mice: YAMAOKA, YAMAMOTO, URABE & NAGATANI 71

High endothelial venule
glycoconjugates, from rat lymph nodes: ANDREWS, MILSOM & STODDART 231
Hydroxyurea
in study of control of cell proliferation in *Saccharomyces*: LORD & WHEALS 183

Lectins
exogenous, inhibition of differentiation in *D. discoideum*: LAROY & WEEKS 203
Locomotion
of neutrophil leucocytes: FORRESTER, LACKIE & BROWN 213
oriented, of amphibian gastrula mesodermal cells: NAKATSUJI & JOHNSON 43

Lymphocyte
recirculation between blood and lymph, in immune response in rat lymph nodes: ANDREWS, MILSOM & STODDART 231
Lysosomes
in male meiosos in *Lilium*: BIRD, PORTER & DICKINSON 27

Macrophages
effects of opsonin and poly(L-lysine) on phagocytosis: MATSUI, ITO & OHNISHI 133
Meiosis
male, in *Lilium*, events in cytoplasm: BIRD, PORTER & DICKINSON 27
Mesodermal cells
of amphibian gastrulae, attachment and locomotion: NAKATSUJI & JOHNSON 43
Microribbons
in cytoskeleton of *Giardia lamblia* contain the protein giardin: CROSSLEY & HOLBERTON 81
Mirror trajectories
of sister cells in fibroblast clones: LEVINSTONE, EDEN & BELL 105
Mitosis
blocked in CHO cells by emetine: WESTWOOD & WAGENAAR 257
Mitotic proteins
of CHO cells, inhibition of synthesis: WESTWOOD & WAGENAAR 257
Murine tumour cells
cytotoxic effects of human ABO blood-typing sera on: McCOY, SCHRIER, LOVETT, JUDD & VARANI 245

Neutrophil leucocytes
in presence of protease inhibitors: FORRESTER, LACKIE & BROWN 213
Nucleoside uptake
effect of conditioned medium on: DOWNES, JOHNSON & YEW 145

Organelle autonomy
in male meiosis in *Lilium*: BIRD, PORTER & DICKINSON 27
Osmium impregnation
patterns of Golgi complex of epididymal cells of mice: YAMAOKA, YAMAMOTO, URABE & NAGATANI 71
Osmoregulation
in rectal chloride epithelia of larval dragonfly: KUKULIES & KOMNICK 159

Permiability
of rectal chloride epithelia of *Aeshna cyanea*: KUKULIES & KOMNICK 159
Phagocytosis
by macrophages: MATSUI, ITO & OHNISHI 133
Plasma membrane proteins
of sea urchin sperm, isolation and characterization: CROSS 13
Poly(A)$^+$ RNA
in protein synthesis in *Tetrahymena*: ISBERNER & CLEFFMAN 121
Polysomes
organization and relation to protein synthesis in *Tetrahymena*: ISBERNER & CLEFFMANN 121
Protein synthesis
inhibition in CHO cells by emetine: WESTWOOD & WAGENAAR 257
rate in *Tetrahymena*: ISBERNER & CLEFFMANN 121

Random walk
in motility of fibroblast clones: LEVINSTONE, EDEN & BELL 105
Rectum
of dragonfly, permeability of chloride epithelia: KUKULIES & KOMNICK 159

Saccharomyces
rate of cell cycle initiation: LORD & WHEALS 183
Sea urchin
sperm, plasma membrane proteins: CROSS 13
Secretion
of sulphated macromolecule by rat lymph nodes: ANDREWS, MILSOM & STODDART 231
Sister-cell pathways
re-programming in fibroblast clones: LEVINSTONE, EDEN & BELL 105
Sperm
of sea urchin, isolation and charactization of plasma membrane: CROSS 13
Sulphate-
labelled macromolecule secreted by rat lymph nodes: ANDREWS, MILSOM & STODDART 231

Temperature
effects on DNA replication in *Xenopus laevis*: AL-SALEH 1
Tubulin
in cytoskeleton of *Giardia*: CROSSLEY & HOLBERTON 81

Xenopus laevis
effects of temperature on DNA replication: AL-SALEH 1
